

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, AUGUST 1, 2005 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3

CURRENT SITUATION:

Initial attack activity was light nationally with 190 fires reported. Seven new large fires were reported, three in the Northwest Area, and one each in the Western Great Basin, Alaska, Southwest and Southern Areas. Six large fires were contained, three in the Northwest Area, two in the Western Great Basin Area, and one in Southern California Area. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Idaho, Montana, Nebraska, Nevada, Oregon, South Dakota and Utah.

NORTHWEST AREA INCIDENTS / LARGE FIRES:

SIMPSON, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Savage) is assigned. This fire is six miles north of Klamath Falls, OR in grass, brush and timber. Steep rocky terrain, poor access, high temperatures and low relative humidity continue to hamper containment efforts.

BLOSSOM COMPLEX, Siskiyou National Forest. A Type 2 Incident Management Team (Paul) is assigned. This complex, comprised of the Blossom and Solitude fires, is 25 miles northeast of Gold Beach, OR in timber. The Blossom fire continues to report increased fire activity with torching, backing fire and rolling debris.

MULE PEAK, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (West) is assigned. This fire is 20 miles southeast of La Grande, OR in timber and grass. Mule Peak Lookout, outbuildings and endangered species habitat remain threatened. Steep terrain and heavy subalpine fuels continue to hamper containment efforts. Short torching runs and spotting were reported.

BURNT RIVER COMPLEX, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Lunde) is assigned. A unified command has been established between the U.S. Forest Service and Oregon Department of Fish and Wildlife. This complex, comprised of seven fires, is 13 miles south of Sumpter, OR in timber and grass. Bald Eagle nesting sites, fish habitat and range improvements remain threatened. Lightning activity caused two new starts within the complex.

DRY CABIN, Malheur National Forest. A Type 2 Incident Management Team (Goheen) is assigned. This fire is eight miles southeast of Dayville, OR in timber. Aldrich Lookout, communications sites, several cabins, a guard station, Dry Cabin Wildlife Area and Cedar Grove Botanical Area are threatened. Lack of water supply, difficult access and rolling, burning debris are hampering containment efforts. The fire continues to creep, smolder and consume 1000-hour fuels.

DIRTY FACE, Washington State-Southeast. This fire is 25 miles northwest of Leavenworth, WA in timber. Very active fire behavior, high temperatures, low relative humidity and steep inaccessible terrain are hindering containment efforts.

IRISH SPRINGS, Vale District, Bureau of Land Management. A Washington Interagency Incident Management Team (Jennings/Perry) has been ordered. This fire is 45 miles northwest of Vale, OR in timber, grass and brush. No further information was received.

DRY FIRE, Vale District, Bureau of Land Management. This fire is 20 miles NW of Burns Junction, OR in grass and brush. High winds temporarily shut down air operations. Steep inaccessible terrain is impeding containment efforts. Thunderstorm activity contributed to rapid rates of spread.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

SNAKE ONE, Payette National Forest. A Type 2 Incident Management Team (Whalen) is assigned. This fire is 21 miles northwest of Weiser, ID in grass. Structure protection for Mountain Man Lodge and local residences remains in place. Grazing allotments and sage grouse habitat are threatened. Forest road closures are in affect for the north side of the fire. Steep, rugged terrain continues to impede containment efforts. Significant runs were reported.

FALLS CREEK, Salmon-Challis National Forest. A Fire Use Management Team (Weldon) is assigned. The fire is 25 miles northeast of Challis, ID in timber and grass. This fire is being managed using a confine/contain strategy. Light precipitation contributed to moderate fire behavior.

CAMP SPRINGS, Southern Piute Agency, Bureau of Indian Affairs. This fire is three miles west of Shivwits, UT in grass. Minimal fire behavior with some interior smoke was reported. No further information was received.

DAMMERON COMPLEX, Cedar City Field Office, Bureau of Land Management. This complex, comprised of the Dammeron, Mill Creek, Yant and Stahlie fires, is five miles north of St. George, UT in mixed conifer, pinyon, juniper and grass. The east side of the fire within the Pine Valley Wilderness Area is in monitor status. No further information was received.

SHEEP CREEK, Ashley National Forest. A Fire Use Management Team (Clark) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is 20 miles southwest of Manila, UT in timber litter and lodgepole pine. The fire is being managed to accomplish resource objectives. The fire was reported to be smoldering.

WESTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

HIKO, Elko Field Office, Bureau of Land Management. This fire is 20 miles from North Alamo, NV in grass and sagebrush. Steep, rocky terrain is impeding containment efforts. Torching, smoldering and small runs were reported.

VEGAS, Desert National Wildlife Refuge. This fire is 15 miles northwest of Las Vegas, NV in tall grass. Desert Tortoise habitat remains threatened. The fire was active on all flanks.

SHEEP, Desert National Wildlife Refuge. This fire is 25 miles northwest of Las Vegas, NV in tall grass. Desert Tortoise habitat remains threatened. Mormon Well road remains closed. Fire activity has been confined to the interior of the burn.

COSMO, Elko Field Office, Bureau of Land Management. The fire is 11 miles northeast of Carlin, NV in grass and sage. Sage grouse habitat and rangeland are threatened. A thunderstorm generated erratic winds and high rates of spread.

MINT, Elko Field Office, Bureau of Land Management. This fire is 52 miles northwest of Carlin, NV in grass and sagebrush. No new information was received.

RATTLESNAKE, Nevada Division of Forestry, Northern Region. This fire is 24 miles northeast of Ruby, NV in grass and brush. No new information was reported. This will be the last report unless new information is received.

NEWMONT, Nevada Division of Forestry, Northern Region. This fire is 12 miles northwest of Carlin, NV in grass and brush. No new information was reported. This will be the last report unless new information is received.

ALASKA AREA INCIDENTS / LARGE FIRES:

NULATO #3, Alaska Fire Service, Galena Zone. A Type 2 Incident Management Team (Jandt) is assigned. This fire is four miles northwest of Nulato, AK in brush. Native allotments remain threatened. The fire has burned together with the Nulato West incident. This incident also includes Fire 529, Fire 528 and the South Fork fires. Active running, crowning and spotting were observed.

BEAVER CREEK, Alaska Fire Service, Upper Yukon Zone. This fire is 45 miles northwest of Fairbanks, AK in timber. Smoke continues to hamper aircraft visibility. The Alyeska Pipeline, residences in the Wildwood Subdivision and recreational land parcels remain threatened. The fire continues to creep and smolder.

MISSION CREEK, Alaska Fire Service, Upper Yukon Zone. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is being managed in conjunction with the Boundary Creek fire. This fire started on Alaska Native Claims Settlement Act land nine miles west of Eagle, AK in black spruce and tundra. Structures in and around Eagle remain threatened. Smoldering with isolated torching was reported.

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. A transfer of command from a Type 2 Incident Management Team (Chrisman) to a Type 2 Incident Management Team (Walker) will occur tomorrow. This fire is being managed in conjunction with the Mission Creek fire. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce and hardwood litter. A portion of the fire is in Canada. Structures along the Taylor Highway near the O'Brien and Dome Creeks are threatened. Isolated torching with some creeping and smoldering was reported.

PARADISE CREEK, Alaska Fire Service, Galena Zone. This fire is 15 miles south of Anvik, AK in black spruce and tundra. Cloud cover and lower temperatures moderated fire behavior.

SOUTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

PINYON COMPLEX, Inyo National Forest. This complex, comprised of the Oak Creek, Pinyon and Hogback fires is six miles northwest of Independence, CA in timber and brush. Patrols continue along the north and south forks of Sawmill Creek. Creeping fire was reported.

KINGSTON 2, California Desert District, Bureau of Land Management. This fire is 31 miles southeast of Shoshone, CA in brush. No further information was received.

COMB COMPLEX, Sequoia & Kings Canyon National Park. A Fire Use Management Team (Hall) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Comb WFU and East Creek fire (formerly reported as the Junction WFU) is 18 miles northeast of Grant Grove, CA in mixed conifer and chaparral. The fire is being managed to accomplish resource objectives. Active backing fire was reported.

OUTLOOK:

Weather Discussion: An upper trough and associated cold front will move across the Pacific Northwest and Northern Rockies today. This will bring increased thunderstorm activity to these areas along with some gusty westerly winds. In Alaska, a low pressure system will bring high humidity and cool weather to much of the interior.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northwest Chance of light rain western Washington. Chance thunderstorms east of the Cascades.	West of Cascades: 60s and 70s north and 80 to 90 south. Eastside: mostly 80s and 90s locally in the 70s extreme north.	West of Cascades: 60 to 70% north. 25 to 35% south. Eastside: 25 to 40% north. 15 to 25% south.	Breezy East of Cascade. Generally west 10 to 20 mph with gusts locally 25 to 30 mph. West of Cascades: west 5 to 15 mph.
Western Great Basin Mostly sunny west, partly cloudy east with isolated scattered showers and thunderstorms.	North Valleys: 86 to 101. South Valleys: 90 to 106. Mountains: 72 to 88.	North Valleys: 9 to 20%. South Valleys: 18 to 30%. Mountains: 20 to 40%.	South to southwest 5 to 10 mph with local afternoon gusts of 20 to 30 mph.
Northern California Mostly sunny. Fog and low clouds along the coast. Slight chance of afternoon and evening showers or thunderstorms far eastern portion.	Mostly 80s and 90s.	12 to 25% in driest inland areas.	Afternoon winds mostly south/southwest to northwest, mostly 3 to 12 mph. Local areas of gusts around 25 mph east of the Cascade/Sierra crest.

<p>Rocky Mountain Scattered mainly afternoon thunderstorms.</p>	<p>Upper 80s to mid 90s Mountains: mid 70s and 80s.</p>	<p>12 to 20% northern portions and southeast Colorado, higher values elsewhere.</p>	<p>Variable 5 to 15mph, except south 10 to 20 mph the eastern plains.</p>
<p>Eastern Great Basin Partly cloudy Idaho and Bridger-Teton with isolated, scattered thunderstorms. Partly cloudy in Utah with scattered showers and thunderstorms, more widespread over the mountains.</p>	<p>Idaho, Bridger-Teton: 70 to 80 mountains, 85 to 97 valleys. Northern Utah: 70 to 82 mountains, 82 to 93 valleys. Southern Utah, Arizona strip: 70 to 89 mountains, 89 to 99 valleys</p>	<p>Idaho, Bridger-Teton: 26 to 35% mountains, 16 to 25% valleys Northern Utah: 30 to 44% mountains, 17 to 32% valleys. Southern Utah, Arizona strip: 33 to 43% mountains, 15 to 30% valleys.</p>	<p>Idaho, Bridger-Teton: South/southwest 8 to 10 mph. Western Utah: southeast 5 to 10 mph. Eastern Utah: Upslope/upvalley 3 to 6 mph. Southern Utah, Arizona strip: Western Utah: Southwest 15 mph. Eastern Utah: Upslope/upvalley 5 to 10 mph.</p>
<p>Southern California Areas of morning low clouds and fog in some coastal areas. Mostly sunny in the valleys. Partly cloudy to cloudy in the afternoon over the southern mountains and deserts with widely scattered thundershowers.</p>	<p>Mountains: 85 to 95. Valleys: 90 to 100. upper deserts: 92 to 102 Lower deserts: 102 to 112.</p>	<p>Central California: 10 to 20% southern California: 20 to 30%</p>	<p>Southeast to southwest 8 to 15 mph.</p>
<p>Alaska Partly to mostly cloudy with isolated to scattered showers and thunderstorms most numerous in the southern and eastern part of the state.</p>	<p>60s to low 70s.</p>	<p>Above 30%.</p>	<p>Variable 5 to 15 mph.</p>

http://www.nifc.gov/sixminutes/dsp_sixminutes.php

UNFAMILIAR WITH WEATHER AND LOCAL FACTORS INFLUENCING FIRE BEHAVIOR

- Can you ask questions of local experts? What kinds of questions would you ask?
- Does the operational period plan give you adequate weather and information? What kinds of weather forecasts can you get? What other weather or local information do you look for in the shift plan?
- Can you get information from resources that have been on the fire? What questions will you ask of the crew that you are replacing?
- Is there any other way to obtain information? List common sources of information on weather and local factors.
- To reduce risks:
 - Base all actions on current and expected fire behavior.
 - Post lookouts.
 - Establish escape routes and safety zones.
 - Take extra caution! Discuss a fire where you relied on information from the local unit (perhaps where your fire knowledge and experience was very different from how they did things—Southeast or Alaska).
